

AST-500 Oil Recycling Machine

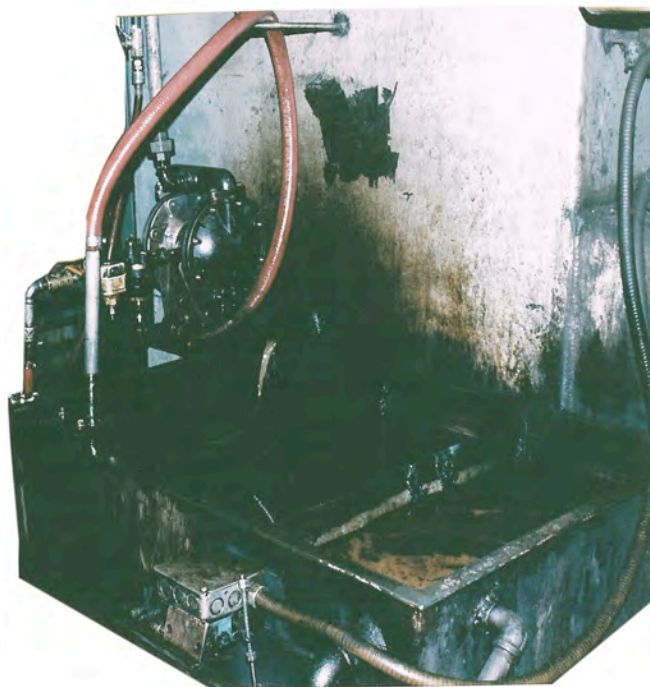

**Danaher Tool** manufactures high quality wrench for Sear Craftsman Tool, NAPA Tool etc. Danaher has been using AST-500 to recycle waste quenching oil from wash tank. This waste quenching oil has been recycled by OilPure Systems **since 1997**.

There has been no waste quenching oil hauled out from this plant. **100% of quenching oil has been recycled with OilPure Systems.**

Recycled oil test report shows the good quality of **"Cool Curve and Cooling Rate"**.

Part Wash Tank for Waste Quenching Oil

In the past waste quenching oil was delivered to waste treatment plant for off-site oil cleaning contractor or waste oil hauler for disposal. **Typical saving from oil recycling is about \$1,200 per month.**

Quenching oil is recovered from excessive water in wash tank after oil skimmer and delivered to AST-500 for the **In-house Oil Reclamation** for reuse.
